Dr. Murad skin care

Murad Method™ facials are a new and entirely personalised concept in high-performance professional skincare from internationally renowned skincare brand Murad.

Developed by Dr. Howard Murad by combining the best pharmaceutical grade ingredients with the latest skincare technology these dermatological, clinically proven facials guarantee to improve the appearance of the skin. We can work with anti-ageing glycolic or retinol acid peels and repairing Vitamin C treatments to treat your skins needs. Each treatment has a combination of antioxidants, anti-inflammatories and hydrators to give visible results and radiant, younger looking skin.

During your facial our therapists will spend time analysing your skin type before designing a bespoke facial to address multiple skin concerns from aging to sun damaged skin or acne breakouts and inflammation to the skin. The facial also includes touch point massage techniques to help relieve stress for ultimate relaxation and mindfulness. Skin will be left noticeably healthier and more beautiful.

Reveal skin scanner

The Reveal Imager takes skin consultations to the next level, allowing us to fully analyse your skin and to design a treatment plan and skin care regime specifically for you. As your treatments progress the Reveal Imager is used to help track the changes and improvements to your skin. We can identify skin conditions not visible to the naked eye and view surface and sub-surface skin issues like redness, inflammation and UV sun damage.

The Reveal Imager is a great initial consultation tool to see what we can do to treat your skin and recommend a treatment plan to suit your individual needs.

Reveal Imager consultation	25 minutes	£2000

The value of the Reveal session can be redeemed against any purchase of 2 or more Murad retail home care products or one of our Dr. Murad facials. Please request at time of booking and if you would like this included within your facial skin treatment.
